The IR-(R*,R*)-2,3-dihydroxybutanediole (1:1) [2784-55-6] has been assumed unless otherwise specified or implied in the original document.

Entries are made at the index name for that derivative

Piperidine (110-89-4), compounds

Specific coordination compounds containing the piperidine ligand are indexed only at the coordination headings, e.g., Copper, (piperidine)₂bis(8-quinolinolato-N¹O⁸)- [57437-33-9]. Nonspecific coordination compounds containing this ligand are indexed here and at the element headings. Specific coordination compounds containing other ligands derived from piperidine, e.g., the anionic ligand, are indexed here as well as at the specific coordination headings
